PREFACE.

We enter upon the first year of our college work, with great hopes of success, because of the encouraging words and substantial aid we have already received from the citizens of York, and from many friends of education throughout this and other states.

We call the attention of those seeking an education to our well arranged courses of study, and of those especially interested in our general work, to the By-Laws and Articles of Incorporation.

FACULTY AND INSTRUCTORS.

REV. J. GEORGE, B. S.,
President and Professor of Mental and Moral Science and Pedagogy.

A. B. STATTON, A. B.,
Professor of the Latin and Greek Languages.

MISS ELNORA DICKMAN, B. S.,
Professor of History and German.

MISS FLORENCE WILLIAMS, B. E.,
(Graduate of National School of Oratory, Philadelphia.)
Instructor in Elocution and Gymnastics.

O. P. WILSON, M. ACC'S.,
Principal of Business Department.

MRS. W. E. MORGAN,
Instructor in Vocal and Instrumental Music.

MRS. E. J. WIGHTMAN,
Instructor in Drawing and Painting.

MISS ELNORA DICKMAN,
Instructor in Mathematics.

A. B. STATTON,
Instructor in Physics and Chemistry.

REV. J. M. HASKINS,
Instructor of Bible Normal Class.

LECTURERS.

FOR COLLEGE YEAR 1890-91.

Rev. E. A. Leeper, D. D.,..... York, Neb
Rev. J. D. Countermine, York, Neb
Bishop E. B. Kephart, D. D. L. L. D.,... Toledo, Iowa
Bishop J. Weaver, D. D.,..... Dayton, Ohio
President J. S. Mills, D. D.,..... Toledo, Iowa

The Classical Course.

COURSE OF STUDY.

FRESHMAN YEAR.

FIRST YEAR.

RHETORIC.

GREEK—Xenophon's Anabasis.

LATIN—Livy; History of Rome (Leighton).

MATHEMATICS—Geometry of Space: Polyhedrons, Cylinders, Cones and the Sphere; University Algebra completed.

SECOND TERM.

GREEK—Herodotus; History of Greece (Cox).

LATIN—Horace, Odes and Epistles (Lincoln).

MATHEMATICS—Plane Trigonometry.

INDUCTIVE BIBLE STUDIES.

THIRD TERM.

GREEK—Homer's Iliad (Kcep); Myths and Legends of Greece and Rome (Berens).

LATIN—Quintillian; Classical Literature (Morris).

MATHEMATICS.—Spherical Trigonometry; Surveying with field practice

INDUCTIVE BIBLE STUDIES.

SOPHOMORE YEAR.

FIRST TERM.

GREEK—Plato's Apology and Crito. Greek Philosophy—Ferrier.

LATIN—Tacitus, Germania et Agricola.

HISTORY—The English People. (Green)

LITERATURE—Pope, (Three hours.)

SECOND TERM.

GREEK—Sophocles' Antigone.

LATIN—Cicero de Senectute et de Amicitia.

HISTORY—The English People (Green).

LITERATURE—Addison, (Three hours).

THIRD TERM.

GREEK—New Testament.

LATIN—Cicero De Officiis.

HISTORY—France.
SCIENCE—Geology, Dana.

JUNIOR YEAR.

FIRST TERM.

GREEK—Demosthenes de Corona.
PHILOSOPHY—Bowen's Logic.
CHEMISTRY—Elements, (Avery or Shepard.)
LITERATURE—Milton, (One hour).

SECOND TERM.

PHILOSOPHY—Bowen Logic concluded.
PHYSICS—Mechanics and Hydrostatics.
HISTORY—Financial and Constitutional History of the United States.
CHEMISTRY—Qualitative Analysis.

THIRD TERM.

PHILOSOPHY—Ethics, (Gregory.)
PHYSICS—Pneumatics, Light and Sound.
ECONOMICS—Political Economy, Walker.
LITERATURE—Shakspeare (One hour).

SENIOR YEAR.

FIRST TERM.

PHILOSOPHY—Elements of Intellectual Science (Porter).
THEOLOGY—Christian Doctrine (Weaver.)
PHYSICS—Heat, Magnetism, and Electricity.
HISTORY—(2 hours) General History of European Civilization (Guizot);
The Philosophical Study of History.

SECOND TERM.

PHILOSOPHY—Schwegler's History of Philosophy.
RELIGION—Butler's Analogy; Manual of Christian Evidences (Fisher).
ASTRONOMY—Olmstead's College Astronomy, by Snell.

THIRD TERM.

BELLES LETTRES—Elements of Criticism (Kames); Lectures.
ELECTIVES { Organic Chemistey.
 } International Law.
Two required. { Mineralogy and Blow-Pipe Analysis (Elderhorst and Dana);
 } Laboratory Work,
ENGLISH LITERATURE—Shakespeare or Milton.
Throughout the Entire Course Weekly Rhetorical Exercises.

The Course In Science and Letters

covers a period of four years. It is intended for those who do not wish to devote so much time to the Greek and Latin languages. With this exception it is similar to the Classical Course. Upon those who complete this course the degree of Bachelor of Science is conferred.

SCIENTIFIC COURSE OF STUDY.

FRESHMAN YEAR.

FIRST TERM.

LATIN—Livy (Elective with German).

GERMAN—Boisen's Prose Composition.

HISTORY—The political and Constitutional History of Rome (Leighton);
Classical Mythology.

MATHEMATICS—Geometry of Space: Polyhedrons, Cylinders, Cones and
The Sphere; University Algebra completed.

RHETORIC.

SECOND TERM.

LATIN—Horace, Odes and Epistles (Elective with German).

GERMAN—Schiller's Jungfrau von Orleans.

HISTORY—Origin, Development, and Diffusion of Greek Civilization
(Cox).

MATHEMATICS—Plane Trigonometry.

LITERATURE—(2 hours) Biography, History, and Historical Reading
(Porter) Chapters XI.—XV.

THIRD TERM.

LATIN—Quintilian (Elective with German).

GERMAN—Goethe's Faust

HISTORY—Morris' Manual of Classical Literature.

MATHEMATICS—Spherical Trigonometry, with Problems in Astronomy
and Geography; Surveying with field practice.

LITERATURE—(2 hours) Porter, Chapters XVI.—XVII.

SOPHOMORE YEAR.

FIRST TERM.

LATIN—Tacitus, Germania and Agricola (Elective with German).

GERMAN—Selections from Lehning.

ZOOLOGY, OR ANALYTICAL GEOMETRY.

HISTORY—The History of England to Charles the Second, Green's Short
History; The English in America, Gilman's American People or
Lodge's Short History of the English Colonies.

ENGLISH LITERATURE—(3 hours.)

SECOND TERM.

LATIN—Cicero, De Senectute et de Amicitia, or Calculus.

GERMAN—Dramas; German Literature (German the only medium of instruction).

HISTORY—The English Revolution and Modern England (Green); Lectures on Contemporary England and Review Lectures on the Evolution of Constitutional Government in England and America.

ENGLISH LITERATURE—(3 hours).

THIRD TERM.

GERMAN—Historical and Scientific Prose.

NATURAL THEOLOGY—Paley.

ENGINEERING—Higher Surveying, Topography and Topographical Drawing.

SCIENCE—Geology, (Dana.)

JUNIOR YEAR.

FIRST TERM.

PHILOSOPHY—Bowen's Logic, to Chapter VIII.

CHEMISTRY—Elements of Chemistry (Avery or Shepard).

HISTORY—McCarthy's History of Our Own Times.

SECOND TERM

PHILOSOPHY—Bowen's Logic, concluded

PHYSICS—Mechanics and Hydrostatics (Kimball's Olmsted).

HISTORY—Financial and Constitutional History of the United States since 1789.

CHEMISTRY—Qualitative Analysis (Appleton); Laboratory Work.

THIRD TERM,

PHILOSOPHY—Ethics, (Gregory.)

PHYSICS—Pneumatics; Light and Sound.

ENGLISH—(1 hour) Chaucer; Short Essays by the Class on Themes in English Literature before the Elizabethan Age.

ECONOMICS—Political Economy (Walker and Thompson).

SENIOR YEAR.

FIRST TERM.

PHILOSOPHY—Elements of Intellectual Science (Porter).

PHYSICS—(4 hours) Heat, Magnetism, and Electricity.

HISTORY—(2 hours) General History of European Civilization (Guizot)

ENGLISH—(2 hours) The Critical Reading of Shakespeare, and Essays by the Class on Subjects from the Elizabethan Age.

SECOND TERM.

PHILOSOPHY—Schwegler's History of Philosophy.

RELIGION—Butler's Analogy, Lectures; The Grounds of Theistic and Christian Belief (Fisher)

ASTRONOMY—Olmsted's Colleg Astronomy, by Snell.

THIRD TERM.

BELLES LETTERS—Elements of Criticism (Kames); Lectures.

ELECTIVES—(Two required) Organic Chemistry, Laboratory Work.

INTERNATIONAL LAW—(Woolsey) The History of Diplomacy from the Peace of Westphalia to Treaty of Berlin.

ENGLISH LITERATURE—Shakespeare; His Mind and Art.

Through the Entire Course Weekly Rhetorical Exercise.

 NORMAL COURSE.

 Leading to the Degree B. P.

FIRST YEAR.

This corresponds in detail to the first year of collegiate preparatory, With the addition of professional instruction in the theory and method of teaching.

SECOND YEAR.

FIRST TERM.

Physical Geography, Physiology, Algebra, School Economy.

SECOND TERM.

English Literature, Algebra, Physics, Principles of Education.

THIRD TERM.

American Literature, Algebra, Elementary Astronomy, School Law.

THIRD YEAR.

FIRST TERM.

Elements of Chemistry, General History Zoology, Geometry.

SECOND TERM.

Mediaeval History, Geometry, Psychology, Drawing, Philosophy of Education.

THIRD TERM.

Botany, Modern History, Geometry, Psychology.

FOURTH YEAR.

FIRST TERM.

Advanced Algebra and Plane Trigonometry, Geology, Logic, Lectures on Pedagogics.

SECOND TERM.

Logic, American Financial and Constitutional History, Spherical Trigonometry, History of Education.

THIRD TERM.

Moral Science, Political Economy, Chemistry, Laboratory work, Surveying.

PREPARATORY COURSE OF STUDY.

JUNIOR YEAR.

FIRST TERM.

ENGLISH—Graded Lessons in English (Reed and Kellogg); Penmanship and Elementary Composition.

MATHEMATICS—Arithmetic.

Two Graded Classes are organized each term, and the student is allowed to complete Arithmetic whenever he can pass a thorough examination in McVickers Complete Arithmetic—the text-book in use—or Ray's Higher.

GEOGRAPHY—Descriptive or Political (Harper's.)

LATIN—The Beginner's Latin Book (Collar and Daniel.)

SECOND TERM.

ENGLISH—Higher Lessons in English (Reed and Kellogg); Penmanship and Elementary Composition.

MATHEMATICS—Arithmetic.

HISTORY—A brief History of the United States (Barnes)

A student who has studied Barnes', or a similar school history, is prepared to continue the subject as laid out in the Middle Year of this Course. See below.

LATIN—The Beginner's Latin Book, continued.

THIRD TERM.

ENGLISH—Elementary Rhetoric.

MATHEMATICS—Arithmetic.

HISTORY—Outlines of General History,

The student must have a standard manual (Barnes', Swinton's or Anderson's,) which will serve as a useful reference book throughout the course.

LATIN—Latin Stories (Bennett).

MIDDLE YEAR.

FIRST TERM.

HISTORY—The United States (Alexander Johnston).

PHYSIOLOGY—Cutter's New Analytic or Comprehensive Physiology.

LATIN—Cæsar (Allen and Greenough); Latin Synonyms (Shumway).

COMPOSITION—Westlake (twice a week).

SECOND TERM.

OUR GOVERNMENT—Local, State, and National (Based on Young's Class Book).

MATHEMATICS—Algebra.

Beginning classes in Algebra are organized at the opening of the first and second term of each year, and continued through three successive terms following.

NATURAL HISTORY—Physical Geography (Houston)

LATIN—Cæsar; Composition (Jones).

COMPOSITION—Westlake (twice a week).

THIRD TERM.

NATURAL SCIENCE—Botany, Gray's School and Field Book; Analysis of Fifty Plants.

MATHEMATICS—Algebra,

LATIN—Cicero, two orations (Allen and Greenough).

RHETORIC—(twice a week).

SENIOR YEAR.

FIRST TERM.

MATHEMATICS—Algebra, concluded.

LATIN—Cicero, two orations; Composition.

GREEK—Goodwin's Grammar; White's Lessons.

If the student prepares for any other collegiate course than the Classical, German is substituted for Greek throughout this year,

GERMAN, or Zoology, or Chemistry.

LESSONS IN ENGLISH, and the Study of American Authors [3].

SECOND TERM.

MATHEMATICS—Plane Geometry [Wentworth], Books I.-III., Free-Hand Drawing.

LATIN—Virgil; Æneid, two books.

GREEK—Goodwin's Grammar; White's Lessons.

GERMAN, or Elementary Physics.

ENGLISH CLASSICS—Addison and Goldsmith [once a week].

LESSONS IN ENGLISH, and the Study of American Authors [3].

THIRD TERM.

MATHEMATICS—Plane Geometry, IV-VI; Geometrical Drawing.

LATIN—Virgil; Æneid, two books.

GREEK—Xenophon's Anabasis [Goodwin]; Greek Prose [Jones].

GERMAN, or Elementary Astronomy.

LESSONS IN ENGLISH, and the Study of American Authors [3]

TEACHERS COURSE.

Which is designed to qualify teachers for a certificate of the First Grade in the state of Nebraska. The completion of this course will require two years. By those however who are well advanced in the common branches it can be done in less time.

FIRST YEAR.

FIRST TERM.

Arithmetic, U. S. History, English Grammar, Geography.

SECOND TERM.

Algebra, Arithmetic completed, Grammar, U. S. History.

THIRD TERM.

Algebra, English Composition, Orthography, Writing.

SECOND YEAR.

FIRST TERM.

Geometry, Physiology, Civil Government, Drawing.

SECOND TERM.

Geometry, Book-Keeping [Theoretical], Natural Philosophy, Elocution.

THIRD TERM.

Geometry, Botany, Theory and Art of Teaching, Elocution.

BUSINESS DEPARTMENT.

In this department of the work courses are thorough and will compare favorably with the courses of any other school, whether it be a "department" or of business purely; and if you think of pursuing a course in business, penmanship or short hand, we would invite your attention to the advantages offered here.

Students in this department have the advantages of the lectures, literary work and influences of the other departments, and are not from necessity compelled to pursue only studies in this department, but may with slight additional cost take up work in the other departments. The studies embraced in the

BUSINESS COURSE.

Are Book-keeping, Business Penmanship, Commercial Arithmetic, Commercial Law, Grammar and Spelling. The average time for completing the course is nine months, but should your circumstances be such that you cannot finish, the time, if only a term or less may be spent with proportional profit.

BOOK-KEEPING

Is taught both in theory and practice, and the amount of good to be derived from this study is inestimable. Accuracy, rapidity, and neatness is expected and required in this branch as well as in all the other work in the course. The theoretical part of the work is arranged in sets embracing almost every kind of book-keeping, from the ones adapted to farming and retail to those used in a wholesale, commission and banking business, and a student who finishes the work feels a confidence in himself, knowing that he will be able to enter business life without being surprised with something new at every turn. After getting well along in the theory the student is allowed to take up the

BUSINESS PRACTICE.

In which he becomes thoroughly acquainted with all the details of office management. The filling out of Notes, Checks, Drafts, Orders, Due Bills, Articles of Co-partnership, Leases and all kinds of commercial paper incident to business transactions, is a part of the work of which the value can not be over estimated.

Each student in the practical work is given a certain amount of money as a capital, then he is required to give as correct an account of his money as if he were in actual employ.

In that manner each student has the benefit of handling money, and of making his own calculations.

INSURANCE OFFICE.

In this office the student is expected to keep the books of the office and at the same time act as agent. Must issue policies, and make proper returns to the company.

COMMISSION OFFICE.

The books in this office will be so arranged that if a student should find a position in this line of business, he would not meet with a surprise at every step of the work.

WHOLESALE OFFICE.

In this office the student is expected to take the management of a business of that character, and keep the books accordingly. Give a correct and accurate statement of all monies received and paid out. Make statements of the business to the partners with invoice of goods on hand.

BANKING.

This branch of the business made a specialty. The books used in the bank agree with books of our business banks. Deposits received, checks cashed, bank drafts issued, notes collected or discounted, money loaned, and in fact a general banking business carried on.

COMMERCIAL ARITHMETIC.

In this work attention will mainly be paid to those portions of arithmetic that are most intimately connected with every day business, such as Fractions, (common and decimal), Interest, Partnership, Percentage, Exchange, Accounts Current, Averaging Accounts, and Rapid Calculations.

COMMERCIAL LAW

Every man is presumed to know the law, and ignorance of law excuses no one. This study is made a very prominent part of the course, enabling the student to understand the general principles governing all kinds of commercial transactions. Each student is required to put this part of his knowledge in practice in his practical work.

PENMANSHIP.

Of all the necessities in the line of education, penmanship is the most neglected. A good business hand is within reach of every one having one good hand and one good eye, with a fair amount of vim and stick-toativeness thrown in. Our methods of instruction are of the latest, in which form and movement are the predominating features. Our aim is for a style of writing that has the necessary elements—legibility and rapidity.

SHORT HAND AND TYPE WRITING.

The demand for those who can do amanuensis work is increasing in all branches of business, and a knowledge of short hand is both a pleasant and profitable accomplishment, and goes hand in hand with a business education. Six months is the average time required to become proficient enough for amanuensis work. The Ben Pitman system is the one used here, as it is believed to be the standard. The type-writer is doing away with the pen scrawls that cannot be read. In addition to type-writing and short hand, the student has the privilege of attending the writing class without any extra charge.

In this department students may enter at any time. Students will be permitted to begin in the work where their knowledge of the subject will permit. However, it will lighten the work of the instructor very much if all will enter at the beginning of a term.

FALL TERM—BOOK-KEEPING.

Theory, with first set in practical work.

Language, English Grammar, Mathematics, Common and Decimal Fractions, Orthography, Physiology, Penmanship, Rhetoricals once a week.

WINTER TERM.

Practical Work, Sales-Book, Invoice Book, Journal, Day Book, Cash Book, Complete Account Book.

Language, English Grammar, Mathematics, Commercial Law, Orthography, Commercial Arithmetic, Penmanship, Physiology, Rhetoricals once a week.

SPRING TERM.

General office work, with actual practice.

Mathematics, Commercial Arithmetic, Language, English Grammar, Commercial Law, Penmanship.

Rhetoricals once a week.

While our equipments are not quite as extensive as those of noted Business Colleges, we claim to give more for the money than any other institution in the West.

DIPLOMAS.

Are awarded those who complete the Business Course and pass a satisfactory examination.

EXPENSES.

Business course, per term.....	\$12.00
Short-hand, per term.....	10.00
Use of type-writer and instruction, per mo.....	6.00
To those in the Business course, Short-hand, per te m.....	6.00
Use of type-writer, and instruction, per mo.....	4.00

ART DEPARTMENT.

The aim of this department is not only to make artists of those who take the time to pursue the full course, but also to educate the fingers and cultivate the æsthetic taste of many who cannot spend so much time in this work.

It will take three years to complete the curriculum.

The first year will be devoted to work in black and white, with the pencil and crayon.

The second year will include instruction in painting, in oil pastel, and Roman art work.

The third year will be devoted to portrait work in oil and crayon, also china painting.

CURRICULUM.

FIRST YEAR.

PENCIL DRAWING—Geometric, Black-board, prospective, flowers and fruits.

CRAYON—Landscapes, studies from the human face as preparation for portrait work.

SECOND YEAR.

OIL PAINTING—Flowers, landscapes, fruits, animals.

PASTEL—Flowers, fruits, landscapes.

ROMAN ART—Landscapes, portraits.

THIRD YEAR.

Crayon Portraits, Pastel portraits, Oil painting in figures and portraits
China Painting.

RATES OF TUITION.

Drawing, per term, 2 lessons a week	\$ 4.00
Roman Art, per term, 2 lessons a week	4.00
Drawing, per term, 4 lessons a week	8.00
Crayoning " " 2 " " "	6.00
" " " 4 " " "	9.00
Pastel landscape, 20 lessons per term	10.00
Crayoning portrait 20 " " "	12.00
Pastel " " " " "	12.00
Oil painting " " " " "	10.00
Oil painting portrait 20 " " "	12.00
China painting " " " " "	12.00

Lessons in French Language will be given extra, \$1.00 for first lesson afterwards 50 cents for each lesson. One lesson in drawing, crayoning and Roman art is an hour and a half. In Portrait, crayoning, painting, and Lemogne, a lesson is three hours.

Those who do not wish to take a term of lessons in any one branch may pay by the lesson, taking as many of each as desired.

All kinds of fabric painting, painting on glass, &c., will be taught also any novelties worthy of attention which may appear.

Sketching from nature will be given special attention.

MRS. E. J. WIGHTMAN, Instructor.

MUSICAL DEPARTMENT.

This department is under the supervision of Mrs. W. E. Morgan a graduate of the New England Conservatory and formerly associated as a teacher with Dr. Tomjee. This lady has had years of experience as a teacher and is fully competent to manage the department under her charge.

The system of teaching embodies the best points of the best methods with a view to educating the student in as rapid a manner as is compatible with a thorough education.

Both private and class lessons will be given in all branches.

Musical recitals are given during the term at which all pupils, capable of doing so, will be expected to perform.

A Chorus class is organized each term in which the work of the masters will be studied, both sacred and secular.

Diplomas are awarded to those finishing the course creditably, and certificates are given to advanced pupils who take a partial course.

VOICE.

Special attention is given to vocal culture. The Italian method is taught—the only correct method. By this, pupils are taught to sing easily and correctly and will retain their voices unimpaired for years.

THE COURSE.

FIRST GRADE.

A Systematic treatment of the organs of speech, the larynx, hard and soft palate, lips, teeth, and tongue, the lungs and diaphragm, costal and abdominal muscles.

A correct method of pure tone production applicable to the lower, register of the voice. Voice placing.

SECOND GRADE.

Covered Tones.—Artistic respiration (deep breathing). Correct expiration (proper control of the breath in closing the tone). Voice gymnastics. Chest expansion and development. The scale, arpeggio and study of tones contained in middle register of the voice. Concone's, Fifty Lessons, op. 9, part first. The trill.

THIRD GRADE.

The trill continued. Concone, op. 9, part second. Articulation, Scientific treatment of the articulatory, vocal, and respiratory organs. Accent. Study of the upper register. Technical exercises uniting the registers of the voice. Hauptner's Vocal School.

FOURTH GRADE.

Marchesi, op. 1, part I. Tone color. Voice gymnastics, continued. Studies in agility. Chromatics. The crescendo and diminuendo. Modulation and transposition. Marchesi's Exercises, op. 1, part II.

FIFTH GRADE

Marchesi's Studies with Words. Classic song studies from the English, German, and Italian school in final tone development; the staccato, portamento, and trill. Lablache's Technique. Nava's Op. 22, with words. Preparation for the concert, opera, and oratorio.

Pianos are rented on reasonable terms to those desiring to practice in the institution.

PIANO COURSE.

FIRST YEAR.

Lebert and Starke Book No. 1. Scales major and minor, Loeschorn, op. 66, books 1, 2 and 3 Heller, op. 46 and 47 with selections from Clementi, Ruhlau and Schuman.

SECOND YEAR.

Lebert & Stark No. 2. Cozmy's velocity studies. Kullak octave studies and studies from Haberbieber, Petersilea and Kalkbrenners. Selections Beethoven, Mendelssohn, Raff.

THIRD YEAR.

Studies from Cramer, Tausig, and others, with selections from Chopin, Mozart, Verdi and American composers.

FOURTH YEAR.

Kullak octave, Book 3, Chopins etudes op. 10, 25, Nocturnes, Sonatas Concertas.

HARMONY, COUNTERPOINT.

The study of harmony should be carried on in connection with the study of an instrument or the voice.

TUITION.

Private lessons.....	\$10.00 per term
Class "	5.00 per term
Solfeggio.....	2.00 per term
Chorus practice.....	1.00 per term
Rent of piano \$2.00 an hour for term or \$3.00 for 2 hours.	

Pupils absent from lessons lose the lesson unless detained by sickness.

EQUIPMENT.

We have only fairly entered upon our work as a school in this place, and a good beginning is one of its most encouraging features. A large main building will be erected during the coming year; for this purpose more than half the amount has been raised, and the remainder will be added before January 1, 1891.

The city of York has given three hundred and eighty-five lots, located in and near the most beautiful part of the city, and reached by the street railway, thus giving us property sufficient to almost insure success financially.

In the physical and chemical laboratories a good foundation has been laid for work, but our rapidly increasing attendance is already making demands for much better equipment in this line.

Small gifts by the friends of the college, in the way of books and geological specimens for the library and cabinet, would be gratefully received and much appreciated, and would enhance the practical value of

these already very useful appendages. These donations may be sent to us by freight at our expense.

A fine military company has recently been organized, with arms furnished by the state, in which the young men are taking a great interest. This we believe to be a feature of our work, which will be a lasting benefit to the physical development of our young men, a matter which cannot receive too much attention. A system of light gymnastics is also being perfected by a specialist, in which students of both sexes will be required to participate. We have in our faculty a graduate from the National School of oratory at Philadelphia, with a reputation as a teacher already established. We are thus provided with the best means in the west for giving instructions. This department is free to all students in the regular college courses.

EXPENSE.

Tuition per term of thirteen weeks,	\$ 7.00
Incidental fee.....	1.50
Board and room per week.....	\$ 3.00 to 3.50
Board without room.....	2.50 to 3.00

Many students board themselves thus making their expenses very small.

Preparations are being made for the establishing of boarding clubs at the opening of next term.

By this arrangement, students may obtain good board at from \$ 1.50 to \$ 2.00 per week each.

For tuition and other expenses in entering the Commercial, Art, and Music departments, see elsewhere in this catalogue.

LOCATION.

The city of York is the county seat of York county and has about 4500 population (fair count). It is the center of a scope of country which for agricultural purposes, is not surpassed on the American continent. The soil is fertile and tillable to a remarkable degree, and its gently undulating surface constitutes a landscape answering the husbandman's ideal.

York has three railroads; The Wyoming branch of the B. & M., the Union Pacific and the Fremont, Elkhorn and Missouri Valley. These roads traverse the county in three directions and afford direct and rapid communication with Omaha, Lincoln and the east as well as to all other points of the compass. No city west of Lincoln is more accessible to the traveling public than is York, and no young city has better hotel

accommodations for its visitors. A street railway connects with the three depots and its street cars await the arrival of all trains. The business portion of York is a credit to its thrift and enterprise. Its buildings are of modern and ornamental design and its solid blocks of brick and stone give it a truly metropolitan aspect. It also abounds in handsome public buildings. The county court house adorns the center of the square, a building costing \$50,000 and possessing rare architectural beauty. The public high school building is a new and striking contribution to the attractions of the place. The extensive buildings of the institution of the Ursuline Order lately located here crown east hill with impressive effect. The two ward school houses are ornamental brick buildings, and the city hall, but lately built, makes out a fine compliment of handsome public structures. In addition to these are the churches of the various leading denominations all of which are provided with good substantial houses of worship which are imposing and attractive without, and comfortable and commodious within. No city in the state is better provided with religious institutions than York. In point of business York is a lively rushing community. Its stores are remarkably well stocked and equipped, some of them comparing favorably with the best in Lincoln. Her business men are a high minded, honorable, class of rustlers and manage to keep up with the great procession. York has numerous industrial enterprises, including two foundries and machine shops and carriage factory a canning factory, creamery, roller flouring mill, several grain elevators, broom factory etc. The York News Union is also an establishment of considerable importance supplying as it does a great number of the papers of the state with ready prints. In addition to these private enterprises, York has all the facilities of modern municipal life, including street cars, an excellent water works system, an extensive telephone exchange and a superior electric light plant, by means of which the city is lighted in a most successful and charming manner. One of York's favorite institutions is its faithful and edicent fire department. It also has four first class newspapers, which are ably conducted and well supported. The intelligence and morality of this little city constitute its best title to admiration. It has always been an educational center and this influence has left its beneficial impress on the place, and its people. A healthy public sentiment has been cultivated and maintained by which the morals of the community have been promoted to an exceptional degree. There has been no saloon in this little city for over ten years, and the sentiment on this subject has been so crystalized, and solidified for several years that no proposition of license has been for a moment entertained. Persons who wish to send their boys to school, can send them here in full confidence that they will encounter the least peril to the morals to be met with anywhere in the state. Upon the whole it is a bright, clean and flourishing place and so impresses every stranger who enters its gates.

BY-LAWS.

ARTICLE I.

The annual meeting of the Board of Trustees shall be held on Wednesday of commencement week, at 10 a. m. in the college building.

ARTICLE II.

The General Agent shall receive and receipt for all moneys, keep a faithful record of the same, stating the name of each person from whom received and date and amount of every payment, and shall pay the same over to the Treasurer of the college, taking his receipts therefor. He shall also submit to the Board of Trustees for their inspection, at the annual meeting, or whenever called 'for all books, papers and accounts pertaining to the college, in his possession' together with a written report of the work accomplished by him since the last annual meeting.

ARTICLE III.

The Treasurer shall receive from the General Agent all moneys accruing to the college, keep a faithful account of the same, and pay out money only upon the order of the General Agent, of the college. He shall also at the annual meeting or whenever called for by the Board of Trustees, submit to them for their inspection, all books, papers, receipts and accounts in his possession pertaining to the college, together with a written statement of its financial condition.

ARTICLE IV.

The Treasurer shall give a bond of not less than four thousand dollars, said bond to be approved by the Board of Trustees.

ARTICLE V.

All bills shall be audited and approved by the Executive committee before an order shall be issued for the payment of the same.

ARTICLE VI.

The President of the Board of Trustees shall appoint an auditing committee consisting of three Trustees whose duty it shall be to examine carefully all books, papers, receipts, accounts and reports, both of the General Agent and Treasurer of the College, and report in writing their findings in reference to the same to the Board of Trustees at their annual meeting.

ARTICLE VII.

The Executive Committee provided for by the articles of Incorporation shall consist of six members, of whom the President of the College shall be, in virtue of his office, one, and occupy the position of Chairman, but under no circumstance shall he be entitled to a vote in said committee.

ARTICLE VIII.

These By-laws may be altered or amended at any regular meeting of the Board of Trustees by a two third vote of those present.

ARTICLES OF INCORPORATION OF THE YORK COLLEGE.

Know all men by these presents: That we, D. F. Moore, E. A. Leeper, Lee Love, N. A. Dean, C. J. Nobes, D. E. Sedgwick, A. C. Montgomery, J. D. Countermine, F. O. Bell and George W. Post, resident freeholders of the County of York, and State of Nebraska, and G. F. Dool and F. W. Jones, residents of the State of Nebraska, do associate ourselves together for the purpose of becoming a corporation in said state.

ARTICLE II.

The name of said corporation shall be the York College, and it shall be located and its principal place of doing business shall be at York, in the county of York and state of Nebraska.

The existence of said corporation shall commence on the 1st day of September, 1890, and terminate on the 31st day of August, 1920.

ARTICLE III.

The business to be transacted by said corporation shall be the promotion of education by the establishment and maintenance of a College in the city of York under the auspices of the church of the United Brethren in Christ.

ARTICLE IV.

The business and affairs of said corporation and College shall be conducted and controlled by a Board of Trustees which shall be selected as follows:

Three members of said Board shall be elected by each conference of the church of the United Brethren in Christ in the state of Nebraska, and also a like number of trustees shall be elected by each co-operating conference without the state. Said members, when so elected, shall be approved by the Board of Trustees before being eligible to a seat on the Board.

There shall be elected annually from the Co., of York five Trustees who shall be resident free holders and who shall be elected by the existing Board of Trustees at their annual meeting. The term of office of the Trustees elected by the various conferences of the Church shall be for a period of three years except at the first election to be held, at which date one of said Trustees shall be elected for one year, one for two years

and one for three years. There may also be added at the discretion of the Board three members from the Alumni Association of said College when one shall have been organized, whose term of office shall be the same as the members elected from the various conferences.

ARTICLE V.

The Board of Trustees shall hold at least one regular meeting annually and in addition thereto shall hold special meetings at the request of the executive committee, or the call of the President of the Board. The date of holding the annual meeting next succeeding shall be fixed by the Board or Trustees each year. Seven members shall constitute a quorum to do business.

ARTICLE VI.

The Board of Trustees shall annually elect an executive committee consisting of not less than five persons whose duty it shall be to conduct the affairs of the corporation in the absence of the Board of Trustees, and report their doings to the Board for their approval at their regular annual or called meetings.

ARTICLE VII.

The incorporators together with such Trustees as may be elected and qualified at the first meeting of the incorporators shall constitute a Board for the transaction of business until the vacancies are filled by the conferences and approved by the Board.

ARTICLE VIII.

The course of study shall be prescribed by the Board of Trustees and shall not be less than four years and shall be similar to the course of study in the State Normal School of the state of Nebraska, and other courses may be added at the pleasure of the Board of Trustees of the College.

ARTICLE IX.

The Board of Trustees is hereby prohibited from mortgaging the campus and buildings thereon.

ARTICLE X.

The title to all real estate shall be vested in the Board of Trustees and all conveyance shall be made to the same.

All conveyances of real estate shall be signed by the President of the Board of Trustees under seal of said corporation.

ARTICLE XI.

The following shall be adopted as the corporate seal of said corporation to-wit—"York College. Seal. York, Nebraska."

ARTICLE XII.

The officers of the corporation shall be a President, Secretary and Treasurer, and such other officers as the Board of Trustees may prescribe.

ARTICLE XIII.

These articles may be amended at any regular meeting of the Board of Trustees by a two thirds vote of the members present.

In witness whereof we have hereunto set our hands this 26th. day of August, 1890.

Valuable Historical Data Revealed As 'Old Main' Cornerstone Razed

Metal Box Sealed 60 Years Ago

By Helen Embree

College officials removed the cornerstone of the partially razed "Old Main" Wednesday.

A metal box containing valuable historical data which had been enclosed in the cornerstone in 1891 was found.

The contents, although somewhat discolored, were still in extremely good condition.

Among the contents were the first catalog published by the college in 1890; a copy of the United Bretheren Discipline published in 1889; and a constitution of the Women's Missionary Association.

Newspapers Found

In addition there were copies of the following newspapers:

The York Republican, June 17, 1891; Lushton Graphic, June 20, 1891; The Daily York Times, June 22, 1891; The Waco Star, June 20, 1891; The York Independent, June 19, 1891; Benedict Gazette, June 20, 1891; The York Democrat, June 18, 1891;

The York Daily Times, Extra Edition, Spring 1891; Toledo, Ia., Chronicle, June 4, 1891; Religious Telescope (published in Dayton, Ohio), January 21, 1891; Children's Friend, May 1, 1891; Woman's, Evangel, December, 1890; Intermediate Bible Quarterly, second quarter, 1891.

Business cards found in the box included York County Printing Company (owned by East and Baker, publishers of Waco Star, Benedict Gazette, Lushton Graphic, and Henderson Advertiser.) and the card of W. L. Morgan, contractor and builder. He apparently had charge of the interior woodwork.

Contractor Revealed

Philip Meehan had written on a letterhead dated January 23, "Is the contractor for brick and stonework on this building." A. C. Snyder had also included his letterhead. He was a hardware dealer.

In the York Republican were advertisements by Charles Baer who was then in the furniture business; Seymour and Company, Implement dealers; Carl Zimmerer, Dry Goods and Groceries; Wruck and Behling, Boots and Shoes; and David and Kildow doing business as the York Marble Works.
