**Announcements for 1968-1969**

### High School Students:

York College places great importance upon the individual. This is indicated, first of all, in the goals of the school. This philosophy is demonstrated by a faculty composed of dedicated teachers who have conscientiously prepared themselves for service in Christian higher education. These teachers have chosen York College through which they can touch the lives of young people and help them to realize their fullest potential.

Even though the college has a forward looking plan for growth, the present size and the anticipated expansion both provide ample opportunity for individual involvement. Young people with specific problems and needs have numerous means through which to find answers and help. Students with special talents and interests have exceptional opportunities to exercise them.

Just as a chain is no stronger than its weakest link, so is our society dependent upon an informed and responsible citizenship. Certain information can be conveyed through electronic, mechanical and printed media, but such qualities as integrity, responsibility and inspiration to achieve are generated through effective, personal contact with quality leaders. The York College faculty desires to help *you* prepare for both service to, and leadership of mankind.

—Dale R. Larsen

# GENERAL INFORMATION

## Accreditation

York College has the highest recognition that is possible to receive from Nebraska Authorities. Letters are on file in the office of the Dean from Nebraska colleges and universities stating that credits from York are fully accepted for transfer. By way of example, the University of Nebraska has stated: "Competent students who transfer from York College to the University of Nebraska will encounter no difficulty in having their credits accepted. York College is to be commended for its efforts to upgrade its faculty and for its favorable student-teacher ratio."

In 1966 York College was granted candidacy for accreditation by the North Central Association of Colleges and Universities which is the organization giving the highest recognition possible to achieve in our region of the nation.

York is recognized by the United States Office of Education as a college whose credits are fully accepted by other colleges. York College is certified for Veterans training under the provisions of Chapters 34 & 35, Title 38, (U.S.C.). Letters are also on file from colleges of several states stating that York College credits are fully accepted. York students transfer to dozens of colleges each year without difficulty.

## Goals of York College

York College seeks to attain the following goals:

- place each student in direct contact with the Bible and other spiritual stimuli, that he might be encouraged in his moral development and in the appreciation of non-denominational New Testament Christianity
- provide for the student two years of quality education in the liberal arts tradition
- meet needs of certain students who can benefit from education beyond high school through a terminal two year program

—aid the student in realizing and exercising his full potential in the home, the church, and society

**GOAL ONE:**

York College proposes to encourage growth in Christian living and Biblical thinking during the first two years of college. She wishes to serve students who desire to develop, to the highest possible degree, spiritual awareness, moral values, Christian character and leadership skills.

Students from all religious groups are welcomed. However, the major portion of financial support and student enrollment is provided by members of churches of Christ, whose plea is for the restoration of undenominational New Testament Christianity. Consequently, the philosophy of Bible instruction will support the tenet that meaningful Christianity has no need of man written creeds, earthly headquarters, or ecclesiastical hierarchy for the church, but that the individual best serves God, others, and himself by forming his convictions from a study of God's Word and acting in accordance with his convictions.

**GOAL TWO:**

York College seeks to provide two years of quality general education in the liberal arts tradition. She believes that in an age of constant retraining and creating of new jobs, the general liberal arts program gives the best base during the first two years of college for the adaptations one will make throughout his career.

The college aims to prepare qualified students for transfer to institutions of still higher learning, where specific vocational preparation in the professional or technical fields may be obtained.

Curricular offerings stress that the student, regardless of the career for which he may later prepare, will have experiences at York College which will prepare him for marriage, a Christian home, useful citizenship, and able communication with his fellow man. Courses will also emphasize appreciation for our American heritage, an understanding of the human and creative spirit, insight into the visible and living world, and a grasp of human social behavior.

**GOAL THREE:**

York College proposes to meet needs of certain students who will benefit from education beyond high school through a two year terminal program.

The college readily accepts some students who do not desire to, or should not, pursue a four year college curriculum. Such students may elect a terminal program because of vocational goals, personal interests, or limited academic ability.

York College senses an obligation to its constituency to provide opportunity to meet these needs. It does so by offering programs in secretarial training, homemaking, and Christian leadership.

#### GOAL FOUR:

York College intends to provide circumstances conducive to the maximal development of each of her students, regardless of his plans relating to a baccalaureate degree.

Her philosophy stresses the importance of the individual, and she strives to continually improve procedures which will meet the needs of each student, that he might realize his full potential.

The student is encouraged to take advantage of services and activities at the college which will complement curricular offerings. The college intends to provide meaningful counseling programs for the student. She seeks to develop activities which will offer experience and awareness in all important facets of living: the spiritual, the social, the physical, the cultural, and the recreational.

York College aspires to the goal that her student product will, in every sense, be a complete and effective citizen.

## **History**

York College was founded in 1890 by the United Brethren Church. The school developed into a four-year liberal arts institution with an enrollment reaching approximately 400 students.

In 1946, a merger was effected between the United Brethren Church and the Evangelical Church, resulting in the Evangelical United Brethren Church, which group continued to sponsor the college. Combined circumstances led to the closing of the school in York in 1954, at which time the Evangelical United Brethren operations were consolidated with a sister school, Westmar College, at LeMars, Iowa.

Following considerable negotiation, members of churches of Christ ultimately received possession of York College at the annual meeting of the York College Board of Trustees on March 20, 1954. Though the original corporate structure remained intact, the complete control and sponsorship of York College came into new hands.

The new administration of York College opened with a two-year program in September, 1956, advancing to a four-year curriculum in 1958. Experience, however, revealed the wisdom and advantage of a junior college program, which has been the exclusive offering of the college since 1959. Enrollment has increased from 89 to the present number of nearly 400. Proportionate increases have been made in faculty and facilities, including the construction of one additional major building, McCloud Hall for women.

York College has maintained an active program of self-evaluation and self-improvement, and is currently engaged in a Pattern for Progress campaign designed to lead to increasing academic strength and physical expansion to accommodate an ultimate 1,000 students.

## **Location**

York College is located in York, Nebraska, and is operated by a Board of Directors who are all members of churches of Christ. The City of York, located in the heart of a very productive agricultural part of the state, is fifty-two miles west of Lincoln, Nebraska, the state capital, and is situated at the intersection of U.S. Highways 81 and 34 near Interstate 80.

The York College campus itself is situated in the east section of the City of York adjacent to the East Hill Municipal Park.

## Campus Facilities

The campus consists of about fifteen acres within easy walking distance of the business section of town. Eight buildings are located on the campus: the Auditorium, Administration Building, Hulitt Hall, McCloud Hall, McGhee Library, Music Building, the Gymnasium and Middlebrook Hall. The Beacon Hill apartments, Childress Hall, the Home Economics Building, Huts, Language Laboratory, Thompson Hall and Thornton Hall are located on properties nearby.

**The Administration Building** houses offices for the chief administrators and their assistants.

**The Auditorium** provides for daily chapel and other assemblies. It also supplies offices for group meetings. It also houses instructional television equipment and provides some classroom space.

**Beacon Hill Apartments**, erected in 1962, house girls in addition to those housed in McCloud Hall.

**Childress Hall**, completed in February of 1958, is serving as a little theater.

**The Gymnasium**, erected in 1929, provides an adequate space for indoor physical education, for a well-balanced program of intramural sports which gives every student an opportunity to participate in some wholesome type of athletic activity, and for some of the inter-collegiate activities.

**Home Economics Building**, a frame building remodeled in 1965, provides facilities for both foods and sewing laboratories.

**Hulitt Hall**, which was built in 1902, houses dormitory facilities for men. This building also contains the chorus room.

**The Huts** are temporary frame buildings used to house married couples and some young men not finding space in Hulitt and Middlebrook Halls.

**The Language Laboratory** has been established temporarily in a frame building. This laboratory equipment will be installed in the new library building when it is completed.

**McCloud Hall**, erected in 1964, has dormitory accommodation for 136 women on three floors. The second floor houses the matron's apartment, guest rooms and parlor. The ground floor contains laundry facilities, piano practice rooms, typing room and a recreation room.

**McGhee Library**, remodeled into a beautiful modified colonial structure in 1958, is centrally located on the campus. The library contains over 12,000 volumes on open shelves and regularly receives 300 periodicals. It also houses recordings, film strips, projectors, slides, tapes and other aids to learning. York Public Library welcomes student use of its 20,000 volumes. Through inter-library loan service, a student may borrow books from almost any library in the state.

The library building also houses on its ground floor the biology, chemistry and physics laboratories with the equipment necessary for the various courses offered. Seven classrooms are on the third floor of this same building.

**Middlebrook Hall**, erected in 1949, has dormitory accommodations for ninety-two college men. A parlor, where students may meet their friends and relatives, is located on the first floor. In the basement are the kitchen, dining hall, Panthers' Lair or Student Center and laundry.

**The Music Building** houses the vocal and instrumental music studios and music lecture room.

**Thompson Hall** houses the faculty offices and lounge.

**Thornton Hall** houses the art studio and classrooms.

# ACADEMIC INFORMATION

This section of the catalog lists the requirements for graduation and certain academic regulations and definitions. Other items not listed in this section which are academic in nature are the courses of instruction and the suggested curricular programs.

The courses of instruction found in section five are listed under four main curricular divisions. Every student will be expected to take some courses from each of these divisions.

Some suggested programs are found in section six, the yellow pages. The number of programs listed are limited because of space. They do not cover all programs possible to begin at York College. These are suggested in order that you understand the possible planning which we can help you do. We will be happy to plan with you to develop the course of study which will best fit your individual needs. You can assist in this planning by bringing a catalog of the college to which you wish to transfer.

**THE GENERAL EDUCATION PROGRAM FOR CANDIDATES

## Academic Regulations

**Absence and Tardiness.** The college holds that regular class attendance is essential to scholarship. It provides for necessary absence and penalizes for over-cutting. Punctuality in all classes is required.

The number of absences in any course must not exceed the number of hours that the class is scheduled to meet each week. For each further absence the student's grade will be lowered on the following basis:

1 hour class -----	5 % deduction
2 hour class -----	3 % deduction
3 hour class -----	2 % deduction
4 hour class -----	1½ % deduction

\* Modern language may be taken instead of Speech 113. Speech 213 may be chosen instead of speech 113 if a basic Speech course has been completed in high school.

5 hour class ----- 1 % deduction

for each additional absence. This deduction will be on the semester's average according to the instructor's standard for the course. Three tardies will equal one absence. Absences just before and after vacations will be considered worthy of double percentage deductions.

Percentage deductions will not be counted against the record of a student who is officially representing the college, provided the proper forms have been completed and filed in the Dean's office before the absence. However, no student shall be absent from any class more than three weeks of a semester. Absences in excess of this amount constitute withdrawal of the student from the course.

Regular daily chapel attendance is expected of each student.

**Application for Degree.** A candidate must present to the Dean a formal application for his degree or diploma by the fourth week of the second semester. Late application may be accepted upon the payment of a fee of \$1.00.

**Class Changes.** No student is permitted to change or leave a class without approval of the instructor, the counselor and the Dean. Any student dropping or adding a class will be charged a fee of \$2.50 unless the change is required by the college. Class changes are not permitted after the third week of any semester, except for very unusual circumstances, and then only with the approval of a committee composed of the instructor, counselor and Dean. Any class dropped without the unanimous approval of the instructor, counselor and Dean will be marked "F". The official date of dropping will be the date on which drop forms are filed in the office of the Registrar. Any class dropped during the first three weeks of a semester will not be shown on the transcript. In cases of prolonged illness, a student may request that his instructor, counselor and the Dean meet as a committee to consider an irregular drop request.

**Classification of Students.** Regular students carrying twelve or more hours who have met entrance requirements are classified as first semester freshmen. Students who have acquired 14 hours of college work are classified as second semester freshmen. Those having obtained 28 hours of work are classified as sophomores, and those with 42 hours of work completed are classified as second semester sophomores.

The necessary scholarship must be maintained at each level.

College transfers not meeting the required scholastic level and beginning freshmen presenting a high school grade point below 1.50, if admitted, will be placed on academic probation. A student admitted on academic probation will have only one semester to bring up his grade point average.

Veterans and other eligible persons attending this institution under the benefits of Chapters 34 & 35, Title 38, U.S.C., as full time students must be enrolled for at least 14 semester hours or the equivalent.

Non-degree students who do not meet entrance requirements, but who wish to enroll in certain courses for personal development, may, upon approval of the Dean, be admitted as special students.

**Entrance Tests.** Each new student is required to present ACT test scores as a part of his admission requirements. Failure to take the American College Test before arrival upon campus will result in a stiff monetary penalty. Test results are made available to the student counselor to assist in guiding the student in the selection of courses, the recognition and removal of weaknesses, and the selection of fields of interest compatible with ability and previous preparation.

**Grade Point Average.** A grade point average is a score derived by dividing the total number of honor points received during a semester by the total number of semester hours of credit carried by the student.

**Grades and Records.** The achievement of the student in each course is expressed as follows:

A—excellent

B—good to superior

C—average

D—Below average (lowest passing mark)

F—failure

S—satisfactory, though without reference to the quality of achievement

I—incomplete

WF—withdrew while doing failing work

WP—withdrew with approval and passing grade

An "I" may be given only when the student has been unable to complete a course for reasons, which, in the judgment of the instructor, have been unavoidable. Incomplete grades must be removed the first six weeks of the following semester.

If an "I" is not removed within the specified time, it automatically becomes an "F". If a student shall choose to take a course a second time to remove a poor grade, only the higher grade shall be considered in determining eligibility for graduation.

**Honor Points.** In order to determine the student's scholarship level, the following points are assigned for each hour of the indicated period: A-4; B-3; C-2; D-1; F, S, WF and WP-0.

**Honor Roll.** The Dean's Honor Roll is published each semester. It is composed of the names of those students achieving high scholarship. To be eligible for the honor roll, a student must be carrying twelve or more hours of work. He must have an average scholarship level of 3.30 with no grade marked incomplete and no grade below "C" for the semester.

Students who achieve a scholastic level of 3.30 points during their entire degree program are graduated "with honors." Those with an average of 3.60 are graduated "with high honors." Those with an average of 3.85 are graduated "with very high honors."

**Honors Course.** A course in which a student of outstanding ability is enrolled to pursue specialized study under the guidance of an instructor.

**Scholarship Levels.** Each student is expected to maintain a scholarship level commensurate with his academic goals. The average is computed by dividing the total honor points earned by the total semester hours attempted, including the "F" and "WF" grades, but not "WP" or "S" grades.

A grade point average of 2.00 is required for graduation in the degree program, and a grade point average of 1.50 is required for the recipient of the Certificate of Achievement diploma. To be eligible to participate in co-curricular activities and to avoid being placed on academic probation, freshmen must maintain a grade point average of 1.50 each semester and sophomores must maintain an average of 1.75.

A student who falls below this level will be placed on academic probation and will be limited to not more than a normal load. When a student is on scholastic probation, he is not permitted to represent the college in any co-curricular activity, such as athletics, chorus trips, debating, dramatic productions and student publications. A student who has been below the required academic level for two consecutive semesters, or a student entering on probation and not raising his grade point average in the first semester, is ineligible to enroll as a regular student. Such students may enroll as special students with a limited load upon approval by the Dean of the college.

**Semester Hour.** A semester hour of credit requires one fifty-minute recitation or lecture per week for eighteen weeks. Two or three hours of laboratory work are equivalent to one hour of recitation.

**Transfer of Credit.** A student who has previously attended a recognized college may make application for transfer of credit to York College. Such a student must submit both the high school and college transcripts which include statements of status at the time of withdrawal. Grades of "D" are not accepted, unless an equal number of hours of "B" or better are also submitted. In general, a grade of "D" in the major field will not be accepted. A transfer student may enroll in the courses which are justified by an evaluation of his transcript.

The highly inflected nature of the Greek language makes it an exceptionally expressive vehicle of communication. It was the most prominent and most widely used language of the Roman Empire in the first century, which made it an ideal language for the evangelization of the Roman world. Throughout the Division he is encouraged to observe interrelations of languages, literatures and fine arts so that he may be able to appreciate his cultural heritage. # SUGGESTED PROGRAMS

Students who have not definitely decided upon a profession or a purpose toward which to direct their education should enroll in the general liberal arts program. The general liberal arts course is suited to the student who has not yet chosen his vocation, but who wishes to lay a broad foundation for a four-year college course. Students not continuing beyond junior college will find the liberal arts program a good general course.

Students who have definitely decided upon a cultural or occupational goal should consult with an advisor so that a curricular plan which will best meet that goal can be selected.

Some of the many possible special interest and pre-professional course patterns are suggested following the outline of the general liberal arts program. Other course patterns not suggested here are available.

## GENERAL LIBERAL ARTS

The general liberal arts program is listed first in the suggested programs because it is the basic course of the college and a majority of the students will be enrolled in it. A student may pursue this program for two years, and at the end of this time he may change his major field of interest with very little loss of time in preparation for the four-year degree.

Students interested in the area of art, Bible, biology, business administration, chemistry, English, history, mathematics, music, physical education, physics, sociology or speech, should enroll in the general liberal arts program. Enrollment should be preceded by careful consultation with a faculty member who teaches in the area of the student's special interest. Counselors will help to outline programs to fit individual needs, but the following is a suggested schedule of courses.

**MATHEMATICS**

A student majoring in mathematics, planning to teach, should enroll in the liberal arts curriculum with mathematics as elective courses. Outstanding students may take math 214 and 224 the first year and provide room for physics 214 and 224 the second year. Students not eligible to enter calculus should take math 173 and 183 the first year and 214 and 224 the second year.

A student planning a research goal should meet the Associate in Science requirements rather than the Associate in Arts requirements. He should elect physics 214 and 224, and other major science courses in addition to four semesters of mathematics.

**MUSIC**

The following course outline is planned for those students who plan a four-year degree in music education. Students planning an applied music major will delete the education courses and take more private instruction.

**PRE-DENTISTRY**

Specific requirements at the University of Nebraska College of Dentistry are 60 semester hours exclusive of physical education and military science. These 60 hours must include two semesters in English composition, two semesters in zoology or biology, two semesters in inorganic chemistry two semesters in physics and two semesters in organic chemistry. Outstanding scholarship is essential for entrance into dental college since only about 20 per cent of the applicants are admitted. The University of Nebraska, the only dental college between Iowa and California, admits only sixty-four beginning students each year.

**PRE-JOURNALISM**

York does not offer specific courses in journalism. However, the major portion of the first two years in journalism school is devoted to achieving a broad general education. A student wishing to major in journalism can easily spend his first year at York without loss of time in his journalism program. Practical experience may be gained during this time by serving as a member of the staff of the student newspaper.

**PRE-LAW**

Standard law schools require that students have at least two years of college training before entering upon professional study. The course listed below meets that need in that it supplies the necessary background in history, government, English and speech, so essential to the practitioner of law.

Law schools do not specify particular courses as being mandatory in the pre-professional training. Therefore, minor adaptations in the suggested program are permissible.

**PRE-MEDICAL TECHNOLOGY**

A student planning to enter medical technology must complete three years of college, a minimum of 90 semester hours, before admission to the program. These three years should encompass four semesters each of biology and chemistry and one semester of mathematics. Such students should enroll in the general liberal arts program, other than the non-lab science courses, and in addition complete Biology 114, 124, 214 and 224; Chemistry 114, 124, 214 and 225 plus three hours of mathematics. Some of the science courses can be planned for the junior year.

**PRE-MEDICINE**

Ninety semester hours or three years of college work are required as prerequisite to the four years in a medical college for the Doctor of Medicine degree. Specific semester hour requirements, at the University of Nebraska, include 14 hours in Chemistry, 12 in Biology, 8 in Physics, 12 in English, and mathematics through introductory calculus. A foreign language is considered a desirable elective.

**PRE-NURSING**

The suggested preliminary college course listed below is designed to meet the entrance requirements of the University of Nebraska School of Nursing. Students planning to enter another school of nursing should select courses to comply with the entrance requirements of that school.

**PRE-VETERINARY AND PRE-ANIMAL HUSBANDRY**

Any person wishing to enter the four-year professional course leading to the degree of Doctor of Veterinary Medicine must first complete two years of pre-veterinary training. The two-year program outlined under Pre-Pharmacy will meet the entrance requirements at Colorado State University. The student should study the entrance requirements of the college of his choice and consult with his counselor at York concerning the advisability of completing two full years at York.

**SECRETARIAL MANAGEMENT**

Students who have had both typing and shorthand in high school will probably be able to take advanced courses in these lines in the first year, and thus prepare themselves for employment by one year of study. However, the course of study in Secretarial Management seeks to prepare persons to assume positions of responsibility as stenographers or secretaries, and to meet the increasing demand for people of broad background and technical skill to fill secretarial positions requiring managerial ability. Modern business courses stress the fact that many secretaries step into executive positions. Consequently, the two-year course which builds a much broader background, and includes some courses in business administration, is recommended.

**Two-Year Degree Program**

Students are encouraged to take the Associate in Arts degree program. Students taking this plan will lose no time when transferring to a four-year college, whereas, those who follow the terminal program will not be able to complete a four-year degree without loss of time. The following program will be somewhat lighter for students who have had previous work in shorthand and typing. The student should consult his advisor concerning adaptations to fit his personal needs.
